Use this simple script when recording your client onboarding video:

"Hello, to get started with your SEO campaign, I need access to three things: your Google Business Profile as a Manager, your WordPress website as an Editor, and your Google Search Console with Full permissions. I'll send you step-by-step instructions for each platform along with my agency email address. Once you've added me to all three, just let me know and we can begin improving your search rankings!"

Record this as you go through an over-the-shoulder of how the client can provide you with access to these items.

Pro Tip: Always use a professional agency email
