Setting Up Your GBP Management Software (Leadsnap Walkthrough)

In this lesson, I walk through how we set up a new client in Leadsnap, our GBP management software. While I'm showing Leadsnap specifically, this process will be similar for whatever GBP manager you're using.

Why use GBP management software instead of the GBP interface directly?

In my experience, changes made through GBP management software tend to stick better and are less likely to trigger re-verifications or cause issues. I almost always make every change I can through the management software rather than through Google's interface.

What you'll learn:

ensure everything is accurate, including updating the opening date and other basic information

- **Adding categories and services:** This is the only place to add additional categories—once you have client approval on

Prompt 2: GBP Landing Pag...

the categories and services from your audit, you'll add them here

- **Hours and special hours:** Updating regular business hours and scheduling special holiday hours
- **Photo scheduling and optimization:** How to upload photos in bulk (get 50-100 from the client if possible, or use AI-generated images with their approval), rename them with keywords, add geotags, and use the drip feature to automatically schedule them to post over time
- **Services interface:** An easier format for adding services compared to the native GBP interface (though categories must still be added under business details)
- **Automated recurring posts:** Setting up AI-generated weekly posts using a simple prompt, choosing tone (persuasive), and whether to include emojis and hashtags—then scheduling them to recur indefinitely
- **Notifications and reviews:** Where to monitor notifications and view all reviews in one place

I'll include the post prompt we use in the lesson resources. It's intentionally short due to Leadsnap's character limits.

GBP Post Prompt

Write a GMB post for Right Way Driving School. Adapt context to the current month. Randomly pick ONE topic related to a driving school. Focus strictly on serving the northern New Jersey area. Highlight social proof / excellent reviews & fair prices. End with a persuasive CTA.
