1 min 33 sec ⚡ 1 min 17 sec

Geotagging adds geographical location data to your images' metadata, helping search engines understand where your business operates. [We recommend Geolmgr.](#)

- \$10/month for batch processing (or free for single images)
- Process up to 25 images at once with a license
- Complete 60-70 images in under 30 minutes

Does It Work?

While some SEOs debate its effectiveness, we've seen clients experience overnight ranking improvements after uploading geotagged images.

Geotag Images

Walkthrough of Caleb's Build

Yes, Google strips metadata from images uploaded to GBP. However, this doesn't mean Google ignores the data during upload. They could process the location information before removing it.

Quick Process

1. Upload images to Geolmgr
2. Enter your business location
3. Click "Geotag"
4. Upload to your website and GBP
