GBP Services

Prompt 6: Service Page Build Out

You are a senior web developer and local SEO expert. Your task: create the Services hub page and all child service pages. The Services page is a navigation hub. Child service pages link back UP to their parent page.

PART 2: CHILD SERVICE PAGES

Ethics: E-E-A-T Authorship ...

=====

===

When to Use a Sitemap

Create individual pages for EVERY child service listed in SERVICE HIERARCHY (under Secondary Categories, Core Services, and General Services).

NoFollow Attributes on Links

Hiding Content from Users

FOR EACH CHILD SERVICE PAGE:

Disavowing Existing Backlin...

1. URL**Non-Local SEO**

Use the URL defined in the architecture for each service.

2. SEO Meta Elements

- Title tag: "[Service Name] [City] [State Abbrev] | Fast, Professional Service"

- Meta description: 150-160 characters describing this service

- H1: "[Service Name] in [City] [State Abbrev] – [Benefit Phrase]"

3. Hero Section

- MUST include professional background IMAGE relevant to this service (generate appropriate image)

- Do NOT use solid color background

- Dark overlay for readability

- H1 displayed prominently

- Subheadline: 1-2 sentences about when someone needs this service

99+

- Trust signals below CTAs

4. Content Structure (600-800 words per page)

OPENING PARAGRAPH (3-4 sentences):

- Speak to user's specific problem

- Acknowledge their situation

- Tell them you can solve it quickly

H2: When You Need [Service Name]

Write 100-150 words:

- Signs/situations requiring this service

- Why not to wait

- Common causes

H2: Our [Service Name] Process

Write 100-150 words:

- How you perform this service

- What customer can expect

- Timeline

H2: [Service Name] Cost in [City]

Write 75-100 words:

- Factors affecting pricing

- Upfront quotes commitment

- No hidden fees

- Do NOT list specific prices

H2: Why Choose Us

Write 75-100 words:

- Trust signals

- Same-day service

99+

FINAL CTA:

- 2-3 sentences driving action

- Phone number

PARENT PAGE LINK (Critical):

Natural sentence linking back to the PARENT page as defined in INTERNAL LINKING MAP:

- If under Secondary Category → link to that category page
- If under Core Service → link to that core service page
- If under General Services → link to homepage

5. Schema Markup

Service schema as JSON-LD:

- @type: Service
- serviceType: [Service Name]
- provider: reference to LocalBusiness
- areaServed: [CITY], [STATE]

6. Design Requirements

- Hero image required
- Match site design style
- Mobile responsive
- Click-to-call on phone numbers

7. Page Section Order

1. Hero (image, H1, subheadline, CTAs, trust signals)
2. Opening paragraph
3. H2: When You Need section
4. H2: Our Process section
5. H2: Cost section
6. H2: Why Choose Us section

CONTENT GUIDELINES FOR ALL PAGES

=====

===

For Google:

- Service name + city in H1 and first paragraph
- Local references where natural
- Proper heading hierarchy

For AI Systems:

- Sound like local expert
- Natural language
- Genuinely helpful

Language:

- 5th grade reading level
- Short sentences
- Not salesy

Words to AVOID: embark, look no further, top-notch, comprehensive, delve, crucial, vital, seamless, cutting-edge, leverage, robust, game-changer, nestled, we understand, testament

=====

===

SCROLL BEHAVIOR

=====

===

All internal links must load destination pages at TOP. No anchor links.

=====

99+

=====

===

After creating all pages, confirm:

- Services page displays all services organized by category

- All category/service headings link to their pages
- All service cards link to individual pages
- Every child page has:
- Hero image (not solid color)
- H1 with service name + city
- Link back to correct parent page
- Schema markup
- All links load pages at TOP
- Total pages created matches PAGE COUNT SUMMARY from architecture

Generate the Services page and all child service pages as specified.
