Maximizing Local Business Reviews for AI Recommendations

This lesson covers two shifts you need to make in how you handle reviews if you want your clients showing up in AI recommendations — whether that's Google's AI Overviews, Ask Maps, ChatGPT, or anything else.

Shift 1: Diversify where reviews live. If you're only asking for Google Business Profile reviews, you're optimizing for the Map Pack but leaving AI visibility on the table. AI systems pull from multiple review sources, and Yelp is actually weighted more heavily than GBP reviews by Google's own AI Overview and by ChatGPT. Beyond Yelp, you should also be building reviews on Facebook, Bing, and other relevant platforms. GBP is still important — but it shouldn't be the only place you're sending people.

Shift 2: Stop asking for generic five-star reviews. AI systems don't just count stars — they read the actual review text and match it against what someone is searching for. If someone asks ChatGPT for a coffee shop with fast Wi-Fi, it's scanning reviews looking for mentions of fast Wi-Fi. Ask Maps does the same thing with GBP reviews. So the old "hey, would you mind

kind of detail-rich review is what gets your client matched to AI queries.

Bottom line: Review diversification + review specificity = AI recommendation visibility.

Review Ask:

Hey [name], thanks for choosing us. Would you mind sharing what we fixed and how it went?
