kind of ridiculous(onboarded this dude a week ago)

First image: May 14th

Second Image: May 21st

Rank map just exploded randomly like 7 pages into the core 30 with citations, home page, everything hasn't even boughten this guy an authority link yet either

800k population for drainage service, he's got 3 other really powerful cats as well, Landscaping, tree removal, and property services

Excited for this guy's potential

insane progress man 😊, going from all red 20s to mostly green in 7 days with just 7 core 30 pages plus citations proves the

methodology hits hard especially in an 800k pop drainage market.

expect some dance back over the next 2 weeks as it stabilizes since its a new gbp, then add the authority link and finish core 30 for landscaping tree removal and property services to lock in gains.

4 strong gbp categories in 800k pop is a goldmine, you can run 4 mini core 30 builds under one gbp. case study material right here man
